

## REMARKS

Applicant respectfully requests consideration of the subject application. This Amendment is submitted in response to the Notice of Allowance mailed June 20, 2006.

Applicant thanks the Examiner for allowing the pending claims. Claim 1 has been amended to clarify that a harmonized interface does not need to be used to couple a primary host processor to a high-level baseband controller. Based on the Examiner's statement of reasons for allowability, the current amendment of claim 1 does not affect the allowability of the pending claims. In particular, the Examiner states as follows:

...The cited claims detail ... the host processor coupled to the high-level baseband controller and having a first portion comprising of a real time event circuit, to process real-time events received from the controller and associated with the wireless communication protocol to thereby initiate execution of a real-time event handler (claims 1-13).... None of the cited prior art of record disclose the above limitations.

(Notice of Allowability of June 20, 2006, page 3).

Applicant respectfully requests reconsideration of the application and allowance of the pending claims.

If the Examiner determines the prompt allowance of these claims could be facilitated by a telephone conference, the Examiner is invited to contact Marina Portnova at (408) 720-8300.

**DEPOSIT ACCOUNT AUTHORIZATION**

Authorization is hereby given to charge our Deposit Account No. 02-2666 for any charges that may be due. Furthermore, if an extension is required, then Applicant hereby requests such extension.

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN LLP

Dated: September 12, 2006
